Failure of the Contractor to submit the Certified Payroll Records in accordance with the Ordinance may result in criminal or civil enforcement by the County, including, but not limited to termination of the agreement for cause, withholding of payments, and assessment of liquidated damages.

2.41.4.

For the purposes of this section, prevailing wage rates and basic hourly rates in the same or more similar trade or occupation in the area, and prevailing hours of labor, shall be as contained in the Certified Prevailing Wages for *Commercial Construction* or the Certified Prevailing Wages for *Highway and Heavy Construction* established by the State of Minnesota, Department of Labor and Industry, as set forth in Attachment A. Prevailing wage rates shall mean the Total Rate, consisting of Basic Hourly Rates plus Fringe Benefits. State of Minnesota Prevailing Wage Rates, current as of the date of the project's bid release, shall apply for the entire term of the Agreement.

2.41.5.

The Contractor shall post the applicable prevailing wage rates, hourly basic rates, and prevailing hours of labor, at a conspicuous location accessible by workers at the location of the Work. The Contractor shall physically include the requirements of the article and the schedules set forth in Attachment A in applicable agreements and contracts with Subcontractors, agents, or other persons doing or contracting to do all or any part of the Work under the Agreement. Incorporation of prevailing wage rates by reference in such agreements and contracts is not acceptable.

2.41.6.

In the event of any violation of the requirement that the Contractor or Subcontractor pay not less than 1-1/2 times the basic hourly rate to each laborer or mechanic employed directly on the job site when such employee is permitted or required to work in excess of the prevailing hours of labor, the Contractor or Subcontractor shall be liable for the unpaid wages.

2.42. Debarment and Suspension

Ramsey County has enacted Ordinance 2013-330 [Ramsey County Debarment Ordinance](#) that prohibits the County from contracting with contractors who have been debarred or suspended by the State of Minnesota and/or Ramsey County.

2.43. Project Labor Agreement

The County has determined that it is in the best interests of the County, as an owner of real property, to have a Project Labor Agreement in place. The Contractor will enter into, and have in effect for the duration of this project, a Project Labor Agreement with the Saint Paul Building and Construction Trades Council. Failure of the awarded vendor to enter into and maintain such an agreement for the duration of the project may be grounds for termination by the County for cause. Upon execution, the Project Labor Agreement shall be incorporated into and become a part of the contract for this Project.

2.44. Alteration

Any alteration, variation, modification, or waiver of the provisions of this Agreement shall be valid only after it has been reduced to writing and signed by both parties.

2.45. Performance and Payment Bonds

2.45.1.

The Contractor shall furnish a Performance and Payment bond, both meeting the following conditions:

2.45.1.1.

2.45.1.4.

2.45.1.5.

Bond amounts shall not exceed the single bond limit for the Contractor's bonding company as set forth in the Federal Register current as of the bid date.

2.45.1.6.

Checks are not accepted in lieu of a Bond.

2.45.2.

The bonds shall each be in the amount of 100% of the Contract Price. The term "contract", as used herein, shall include the original agreement plus all subsequent change orders and/or amendments. The Contract Price to which the principal is bound shall be the amount as reflected by the terms of the contract.

2.45.3.

The bonds shall cover the faithful performance of the Contract and the payments of all obligations arising thereunder. No work shall begin until the County has received the proper bonds specified under this clause.

2.45.4.

Bonds shall indemnify the County for any loss sustained by the County on account of or by reason of the acts of the Contractor or the acts of anyone else directly or indirectly employed by the Contractor in the performance of the Work for the Project.

2.46. Schedule Progress

The Owner shall, at its discretion, hold bi-weekly meetings to monitor progress and coordinate activities at the location of the Work. The Contractor and its Subcontractors shall attend these meetings, provide any required documentation of progress and anticipated construction scheduling as required by the Owner. These meetings will be held at a time and location determined by the Owner.

If, in the opinion of the County, the Contractor falls behind the progress schedule, or if it appears that the Contractor will not achieve Substantial Completion in accordance with the agreed upon schedule, the Contractor shall take any and all steps necessary to improve the progress to assure Substantial Completion in accordance with the schedule, at no additional cost to the County.

The County may require the Contractor to submit for approval and at no additional cost to the County, such supplementary progress schedules as may be deemed necessary to demonstrate the manner in which the approved progress schedule or date of Substantial Completion will be regained.

Failure of the Contractor to comply with the requirements of this subparagraph shall be grounds for determination that the Contractor is not performing the Work with such diligence as will ensure completion within the time specified in the Agreement between the County and the Contractor. Upon such determination, the County may terminate the Contractor's right to proceed with the Work, or any separable part thereof, in accordance with other applicable provisions of the Contract or may obtain the services required to bring the Work into compliance with the schedule at the Contractor's cost.

2.47. Changes in Work

Changes in the Work may be accomplished after execution of the contract by Change Order, Construction Change Directive, or order for a minor change in the Work, subject to the limitations stated in the Contract Documents. A change in the Work that affects the Contract Price or schedule may be made only by Change Order.

A Change Order shall be based upon agreement between the County and the Contractor; a Construction Change Directive may be issued by the County without the agreement of the Contractor; an order for a minor change in the Work may be issued by the Contractor.

Changes in the Work shall be performed under applicable provisions of the Contract Documents, and the Contractor shall proceed promptly, unless otherwise provided in the Change Order, Construction Change Directive, or order for a minor change in the Work.

Change Orders

A Change Order is a written instrument prepared by the Contractor and signed by the County and the Contractor stating their agreement upon all of the following:

- a change in the Work;
- the amount of the adjustment, if any, in the Contract Price; and
- the extent of the adjustment, if any, in the Project Schedule.

No work consistent with the changes in the Change Order shall commence until the Change Order has been reduced to writing and signed by both parties.

Construction Change Directives

A Construction Change Directive is a written order prepared and signed by the County, directing a change in the Work prior to agreement on adjustment, if any, in the Contract Price, schedule, or both.

2.48. Minor Changes in the Work

The Contractor shall have authority to make minor changes in the Construction Documents and construction consistent with the intent of the Contract Documents when such minor changes do not involve adjustment in the Contract Price or extension of the Project schedule. The Contractor shall promptly inform the County, in writing, of minor changes in the Construction Documents and construction.

2.49. Oral Agreements

Verbal orders and suggestions as to the performance of the work may be given from time to time by the Owner's Representative, or by other representatives of the municipality, county, state or other government or regulatory agency through the Owner's Representative. When in the opinion of the Contractor, such verbal orders or suggestions entitles the Contractor to a change in Contract Price or Contract Time or both, the Contractor must request a Change Order from the Owner. No verbal order or suggestion of any representative or employee of the municipality, county, state or other governmental or regulatory agency, or of any other person, shall be construed as authorizing any claims on the part of the Contractor for extra compensation for labor, material or other items pertaining to such work, or for damages or any other expenses incurred because of the Contractor's compliance therewith. The Contract Price and Contract Time may only be changed by Change Order.

2.50. Maintenance of Record Drawings at Site and Shop Drawings

The Contractor shall maintain at the Project site for the County one record copy of the drawings, specifications, product data, samples, shop drawings, addenda, Change Orders and other modifications, in good order and marked currently to record field changes and selections made during construction, and one record copy of approved Shop Drawings, Product Data, Samples and similar required submittals. These shall be delivered to the County upon completion of construction as a record of the Work as constructed prior to final payment.

2.51. Final Inspection

2.51.1.

Upon written notice from the Contractor that the Project is completed, the Owner's Representative together with the Owner, and other appropriate parties, will make a preliminary inspection with the Contractor present. Upon completion of this preliminary inspection, the Owner's Representative will notify the Contractor, in writing, of any

particulars in which this inspection reveals that the work is defective or incomplete. This list shall be referred to as a "Punch List".

2.51.2.

Upon receiving the Punch List from the Owner's Representative, the Contractor shall immediately undertake the actions required to remedy defects and complete the Project to satisfaction of the Owner and the Owner's Representative.

2.51.3.

When the Contractor has corrected or completed the items as listed in the Owner's Representative's written notice, the Contractor shall inform the Owner's Representative, in writing, that the required Work has been completed. Upon receipt of this notice, the Owner's Representative, in the presence of the Contractor, Owner, and other appropriate parties shall make their final inspection of the Work.

2.51.4.

If the Owner's Representative finds all Work satisfactory at the time of this second inspection, the Contractor will be allowed to make application for final payment in accordance with the provisions of the Contract Documents. If the Owner's Representative still finds dissatisfaction with the same Work, the Owner's Representative shall inform the Contractor of the deficiencies and will deny the Contractor's request for final payment, until such time as the Contractor has satisfactorily completed the required Work. The cost of the third or subsequent inspections shall be borne by the Contractor.

2.52. Final Payment

After the final inspection and acceptance by the Owner of all Work under the Contract, the Contractor shall prepare an application for final payment and submit it to the County for approval. The total amount of final payment due the Contractor under this Agreement shall consist of the total Contract Price as adjusted in accordance with approved Change Orders, less all previous payments to the Contractor and subject to withholding of any amount due the County as liquidated damages, as provided in Section **X** below, or as otherwise due under the Contract Documents or applicable law. The Application for final payment shall be accompanied by the following:

1. final lien releases and claim waivers (in a form acceptable to the County) by the Contractor and all persons performing Work and supplying material or services to the Contractor;
2. an affidavit that all payrolls, bills for materials and equipment, and other indebtedness connected with the Work for which the County might in any way be responsible, have been paid or otherwise satisfied;
3. consent of surety, if any, to final payment;
4. two copies of Operation & Maintenance Manuals with provided warranty documentation for products and two copies of as-built plans identifying modifications to original plans;
5. if required by the County, other data establishing payment or satisfaction of all such obligations, such as receipts, releases and waivers of liens arising out of the Agreement, to the extent and in such form as may be designated by the County;
6. the Certificate of Project Completion form (provided by the County);

7. a copy of the completed State of Minnesota Form IC-134, signed by the State Commissioner of Taxation, for the Contractor and its subcontractors; and
8. a complete report describing efforts and outcomes of those efforts towards achievement of Project SBE and labor utilization goals; and sustainability goals, if applicable.

2.53. Warning Signs and Barricades

The Contractor shall at all times so conduct their Work as to insure the least possible obstruction to traffic and inconvenience to the general public and the residents in the vicinity of the Work, and to insure the protection of persons and property. No road or street shall be closed to the public except with the permission of the proper governmental authority. The Contractor shall warn effected motorists, pedestrians or residents of any construction practices or situations which could be dangerous, cause personal injuries or property damage. Fire hydrants on or adjacent to the work shall be kept accessible to fire-fighting equipment at all times. Temporary provisions shall be made by the Contractor to insure the use of sidewalks and the proper functioning of all gutters, sewer inlets, drainage ditches and irrigation ditches, which shall not be obstructed. The Owner's Representative reserves the right to require immediate backfilling of any street area which the Owner's Representative deems it required for safe traffic circulation within or adjacent to the Work.

2.54. Crossing Utilities

2.54.1.

Where the prosecution of the Work results in the crossing of highways, railroads, streets or utilities under the jurisdiction of state, county, city or other public or private entities, the Contractor shall secure written permission from the proper authority to cross said highway, railroad, street or utility before further prosecuting the Work. A copy of the written document granting permission shall be filed with the Owner and Owner's Representative before any work is done. The Contractor shall be required to obtain a written release from the applicable authority upon completion of the Work. A copy of this written release shall be filed with the Owner and Owner's Representative before final acceptance of the work is granted.

2.54.2.

The Contractor shall protect that which is to remain and shall conduct all installation operations in a manner that will not damage or jeopardize the surrounding plant life designated to remain. Equipment operating around existing trees shall use extreme caution to prevent damage to roots, trunks, and branches. The Contractor shall verify the location and elevation of existing utilities in the area of work. Any damage to utilities, trees or other existing-to-remain items shall be repaired at the Contractor's expense.

2.55. Sanitary Provisions

The Contractor shall provide and maintain such sanitary facilities for the use of Contractor's employees and its Subcontractors as may be necessary to comply with the laws, rules or regulations of the federal, state, and local governments, or agencies or departments thereof.

2.56. Preservation of Historical Objects

2.56.1.

Where historical objects of potential architectural, archeological or paleontological nature are discovered within the areas on which the Contractor's operations are in progress, the Contractor shall restrict or suspend their operations in the immediate area of the

discovery as may be necessary to preserve the discovered objects until the Owner has made arrangements for their disposition or has recorded the desired data relative thereto.

2.56.2.

The Contractor shall immediately notify the Owner of any historical objects discovered as the Work is being performed, and shall aid in the preservation and salvage program decided upon, as may be requested or ordered by the Owner. Work requiring a change to the Contract Price shall not be performed without the written authorization of the Owner.

2.56.3.

The Owner shall have the right to restrict or suspend the Contractor's operations in the immediate area where historical objects are discovered for a period not to exceed 72 hours, without claim being made by the Contractor for any damages they might suffer as a result thereof.

2.57. Lands by Owner

The Owner shall provide access to the lands shown on the drawings upon which the Work is to be performed. The Owner shall also provide or obtain the right-of-way for access to the land. Any delay by the Owner in furnishing access to the land shall be deemed proper cause for consideration of adjustment in the time of completion, but not in the Contract Price.

2.58. Land by Contractor

Any additional land and access thereto not shown on the drawings that may be required for temporary construction facilities or for storage of Materials shall be provided by the Contractor with no liability to the Owner. The Contractor shall confine its apparatus, storage of Materials, and operation of its workers to those areas described in the drawings and specifications; and such additional areas that may be provided at the contractor's expense. The Contractor shall notify the Owner's Representative in writing of those lands provided at the contractor's expense. The Contractor shall not disturb any areas outside of the construction limits including wetlands, woodlands and previously restored work areas.

2.59. Private Property

The Contractor shall not enter upon private property for any purpose without obtaining permission from the owner, and shall be responsible for the preservation of all public property, trees, monuments, etc., along and adjacent to the street and/or right-of-way, and shall use every precaution necessary to prevent damage or injury thereto. The Contractor shall protect carefully from disturbance or damage all monuments and property marks until the Owner's Representative has witnessed or otherwise referenced their location and shall not remove them until directed.

2.60. Shop Drawings

2.60.1.

The Contractor shall provide Shop Drawings as may be necessary for the prosecution of the Work as required by the Contract Documents. The Owner's Representative shall promptly review all shop drawings. The Owner's Representative's review of any Shop Drawing shall not release the Contractor from responsibility for deviations from the Contract Documents. The discovery of any Shop Drawing which substantially deviates from the requirements of the Contract Documents shall be evidenced by a Change Order or corrected and resubmitted by the Contractor, at the Owner's Representative's discretion.

2.60.2.

When submitting for the Owner's Representative's review, Shop Drawings shall bear the Contractor's certification that the Contractor has reviewed, checked and approved the Shop Drawings and that they are in conformance with the requirements of the Contract Document.

2.60.3.

Portions of the Work requiring a Shop Drawing or sample submission shall not begin until the Shop Drawing or submission has been reviewed by the Owner's Representative. A copy of each approved Shop Drawing and each approved sample shall be kept in good order by the Contractor at the site and shall be available to the Owner's Representative.

2.60.4.

Prepare Project-specific information, drawn accurately to scale. Do not base Shop Drawings on reproductions of the Contract Documents or standard printed data. Fully illustrate requirements in the Contract Documents. Include the following information, as applicable:

- a. Dimensions.
- b. Identification of products.
- c. Fabrication and installation Plans.
- d. Roughing-in and setting diagrams.
- e. Wiring diagrams showing field-installed wiring, including power, signal, and control wiring.
- f. Shop work manufacturing instructions.
- g. Templates and patterns.
- h. Schedules.
- i. Notation of coordination requirements.
- j. Notation of dimensions established by field measurement.
- k. Seal and signature of professional engineer if specified.
- l. Wiring Diagrams: Differentiate between manufacturer-installed and field-installed wiring.

2.60.5.

Submit opaque (bond) and electronic copies of each submittal. The Owner's Representative will return one copy.

2.61. Substitutions After Award of Agreement

Whenever a Material, article or piece of equipment is identified in the Contract Documents by reference to brand name or catalog number, it shall be understood that this reference is for the purpose of defining the performance or other salient requirements and that other products of equivalent capacities, quality and function shall be considered. The Contractor may recommend the substitution of a Material, article, or piece of equipment of equivalent substance and function for those referred to in the Contract Documents by reference to brand name or catalog

number, and if, in the opinion of the Owner's Representative, such Material, article, or piece of equipment is of equivalent substance and function to that specified, the Owner's Representative may approve its substitution and use by the Contractor. Where applicable the Owner's Representative will only approve substitutions after the Contractor has received approval from the municipality, county, state or other regulatory agencies with jurisdiction. The Owner's Representative will not lobby for the approval of the substituted Material. Any cost differential shall be deductible from the Contract Price and the Contract Documents shall be appropriately modified by Change Order. The Contractor warrants that if substitutes are approved, no major changes in the function or general design of the Project will result. Incidental changes or extra component parts required to accommodate the substitute will be made by the Contractor without a change in the Contract Price or Contract Time. Requests for review of substitute items will not be accepted by the Owner's Representative from anyone other than the Contractor. The Contractor shall reimburse the Owner for the charges incurred by the Owner's Representative to evaluate each proposed substitution.

2.62. Submittals

2.62.1.

No portion of the Work requiring submission of a Shop Drawing, drawing, manufacturer's literature, test data or other information, or a sample shall be commenced until the submittal has been approved by the Owner.

2.62.2.

The Contractor shall furnish one copy of complete product data for every manufactured item of equipment and all components to be used to perform the Work, including specific performance data, material description, rating, capacity, working pressure, material gauge or thickness, brand name, catalog number and general type. This data shall be compiled by the Contractor and reviewed by the Owner's Representative before any of the equipment is ordered. All data shall be indexed according to specification section and paragraph for easy reference. After review, this data shall become a part of the Contract, and may not be deviated from except upon the written approval of the Owner's Representative.

2.62.3.

Product data for equipment reviewed by the Owner's Representative does not in any case supersede the Contract Documents. The review of the Owner's Representative shall not relieve the Contractor from responsibility for deviations from drawings or specifications unless the Contractor has in writing called the Owner's Representative's attention to such deviations at the time of furnishing said data. Nor shall such review relieve the Contractor from responsibility for errors of any sort in the items furnished. The Contractor shall check the work described by the product data with the Contract.

2.62.4.

It shall be the responsibility of the Contractor to insure that items to be furnished fit the space available. The Contractor shall take necessary field measurements to ascertain space requirements, including those for connections and shall order such sizes and shapes of equipment that the final installation shall suit the true intent and meaning of the Drawings and Specifications.

2.62.5.

Where equipment requiring different arrangement of connections from those shown is approved, it shall be the responsibility of the Contractor to install the equipment so as to allow for proper operation and to be in harmony with the intent of the drawings and

specifications, and to make all changes in the Work required by the different arrangement of connections.

2.63. Intent of Plans and Specifications

The intent of the Plans and Specifications is that the Contractor shall furnish all labor and materials, equipment and transportation necessary for the proper execution and completion of the Work unless specifically noted otherwise. The Plans and Specifications are complementary, and what is required by one shall be as binding as if required by all. Performance by the Contractor shall be required only to the extent consistent with the Contract Documents and reasonably inferable from them as being necessary to produce the intended results. The Contractor shall do all the Work shown on the Plans and described in the Specifications and all incidental work considered necessary to complete the Project in an acceptable manner, and to fully complete the Work, ready for use, occupancy and operation by the Owner.

2.64. Discrepancies

Any ambiguity or discrepancy drawings and Specifications, no matter how seemingly insignificant to the Contractor, shall be brought immediately to the attention of the Owner's Representative for clarification. The Owner's Representative shall promptly correct such ambiguity or discrepancy in writing. If the Contractor fails to bring any ambiguity or discrepancy in writing of which it was or should have been aware, the Contractor shall assume the risk of loss because of, and shall be allowed no claim for the misinterpretation of, the drawings and Specifications contrary to the intended interpretation of the Owner's Representative. Work done by the Contractor after the Contractor's discovery of such discrepancies, inconsistencies or ambiguities shall be done at the Contractor's risk.

2.65. Additional Instructions and Detail Drawings

The Contractor may be furnished additional instructions and detail drawings by the Owner's Representative, as necessary, to carry out the Work required by the Contract Documents. The additional drawings and instruction thus supplied will become a part of the Contract Documents. The Contractor shall carry out the Work in accordance with the additional drawings and instructions.
