Joint Labor Management Committee (LMC)

- **Established 1990**
 - **Advisory to the county board providing input into county employee insurance benefits**
 - **Goal is to promote quality, cost-effective insurance which is affordable and viable for the long term**
 - **15 official members - 8 Labor, 7 Management**
 - **Each member has additional alternates**
 - **Monthly meetings**
-

Roles and Relationships

LMC Discussion Focus

Medical Cost Increases – Family v. Single

Medical Changes Reasons

- Only 1 plan option - doesn't align with market
- Monthly premium for family medical is more expensive than other gov't entities
- 50% of gov't entities offer a high deductible plan
- Personalize choice and health management
- Recruitment tool

LMC Recommendations

2024 Medical Plan Changes

- Provide more than 1 plan option to employees.
 - Additional options should provide **meaningful choice** to employees at different stages in life who utilize medical insurance differently
 - Provide a **High deductible HSA** plan option
 - Provide additional enrollment tiers in addition to single or family
 - Single + spouse
 - Single + child(ren)
 - Seriously consider the impact of transitioning from a fully insured to a **self-insured funding model**
 - Redesign wellness program that more broadly engages employees
-

Current Wellness Program Incentive

- **Earn lower copays**
 - **Complete health risk assessment**
 - **Complete wellness activities**
 - **Incentivizes only those that go to the doctor**
 - **Many new incentive options exist now**
 - **No changes in incentive for very long time**
-

2024 Benefits Procurement Goals

- Talent attraction and retention – market competitive
- Diversity and inclusion
- Health equity
- Better incentivize health outcomes/wellness
- Data driven decisions
- Meaningful choice in plan design – flexible options
- Cost management
- Employee responsibility to manage health

**Benefit

Medical RFP Alternative Plan Designs

Medical RFP Alternative Plan Designs

- Align with stated goals including market competitiveness
- Alternative plans are designed to:
 - Provide flexibility and choice by offering distinct design and premium differences
 - Add enrollment tiers: Single, Single + spouse, Single + child(ren), Family.
 - Improve wellness through redesigned incentive program

RFP Alternative Plan Designs

High Plan

Eliminates deductible in exchange for a narrow network

Increases out-of-pocket max closer to market standard

Mid Plan

Increases deductibles closer to the average for gov't plans

Out-of-pocket max set to sit between the max of the High and HDHP plan

High-Deductible Plan

Deductibles set are minimum required for HAS plans

Out-of-pocket max maintains relationship to other plans

Funding Approaches - Medical

Overview

Feature	Fully-Insured	Self-Insured
Who Takes On Claims Fluctuation Risk	Insurer *	Plan Sponsor *
Financing	Monthly Premium Payments	Actual Claims Experience + Monthly Fixed Fee(s); Variations Available
Plan Governance	State of Minnesota	As a local government plan, also by the State of Minnesota
Plan Design and Network Configurations	Limited	Mostly Open-Ended
Claims Administration & Managed Care Network Provided By	Health Insurer	Health Insurer or Third-Party Administrator

* The degree of claims fluctuation risk may be mitigated in certain arrangements.

Funding Approaches – Pros/Cons

	Fully-Insured	Self-Insured
Pros	• Unexpected claims volatility risk borne by insurer • Monthly plan sponsor costs capped at premium level; premiums are predictable and budgetable • Administration cost is included in monthly premium statement	• Flexibility in plan designs; designs not limited to filed plans • Cash flow – Pay-as-you-go claims volume beneficial in favorable months and years • Reserve – Retained by plan sponsor; when claims experience is lower than expected, excess reserve can be held for future adverse experience • More control over underwriting assumptions • Data reporting • Potential for savings

Funding Approaches – Pros/Cons

	Fully-Insured	Self-Insured
Cons	• Higher fixed costs • Year-end surplus retained by insurer • Reserve held by insurer • Plan design(s) dictated by insurance carriers and state regulations • Claims experience reporting may be limited • Required to comply with both State and Federal requirements • Limited ability to negotiate year-over-year premiums • Little control over underwriting assumptions	• Unpredictability of claims costs – cash flow volatility • Need to establish own premium equivalent rates (or pay an advisor to do so) • Ownership over plan documents (SPDs, SBCs, plan provisions) • Fiduciary responsibility (can be ceded for a fee) • Accounting requirements • Increased financial management

Bargaining Authority

Closed Session – June 27, 2023

Bargaining

- All relevant insurance information has been made available to our labor partners throughout the process
- Given our collaborative efforts throughout the insurance vendor selections process, Labor Relations suggested all labor partners bargain together
- Negotiations begin mid-July
