Property Tax Components and Partnerships

- **Market value** - The estimated selling price of a property on the open market, determined each year by the County Assessor.
- **Tax capacity** - A property's share of the tax base, calculated by applying state-determined class rates to its market value. Different property types (residential, commercial, agricultural, etc.) have different class rates.
- **Levy** - The total amount of property tax revenue that a local government (county, city, school district or special district) decides it needs to raise for the upcoming year.
- **Exclusions** – Exclusions lower the taxable value of a property, reducing the owner's property tax burden before the tax rate is even applied. Examples include the Homestead Market Value Exclusion and Disabled Veterans Exclusion.

Property Tax Components and Partnerships

- **Classification Rates** - A classification rate is the percentage of a property's market value that is used to calculate its tax capacity. Different types of property (residential, commercial, agricultural, apartments, cabins, etc.) are assigned different classification rates by state law.
- **Tax rates** - The percentage applied to each property's tax capacity. It is calculated by dividing the total levy by the total tax capacity within a taxing jurisdiction.
- **Partnerships** with other taxing jurisdictions - school districts, cities, and special taxing districts such as watersheds, transit and HRAs.

What is Changing?

What is Changing – Market Value

Market Value is determined by the County Assessor and reflects what the property could reasonably be expected to sell for as of the assessment date.

Numbers include exempt properties.

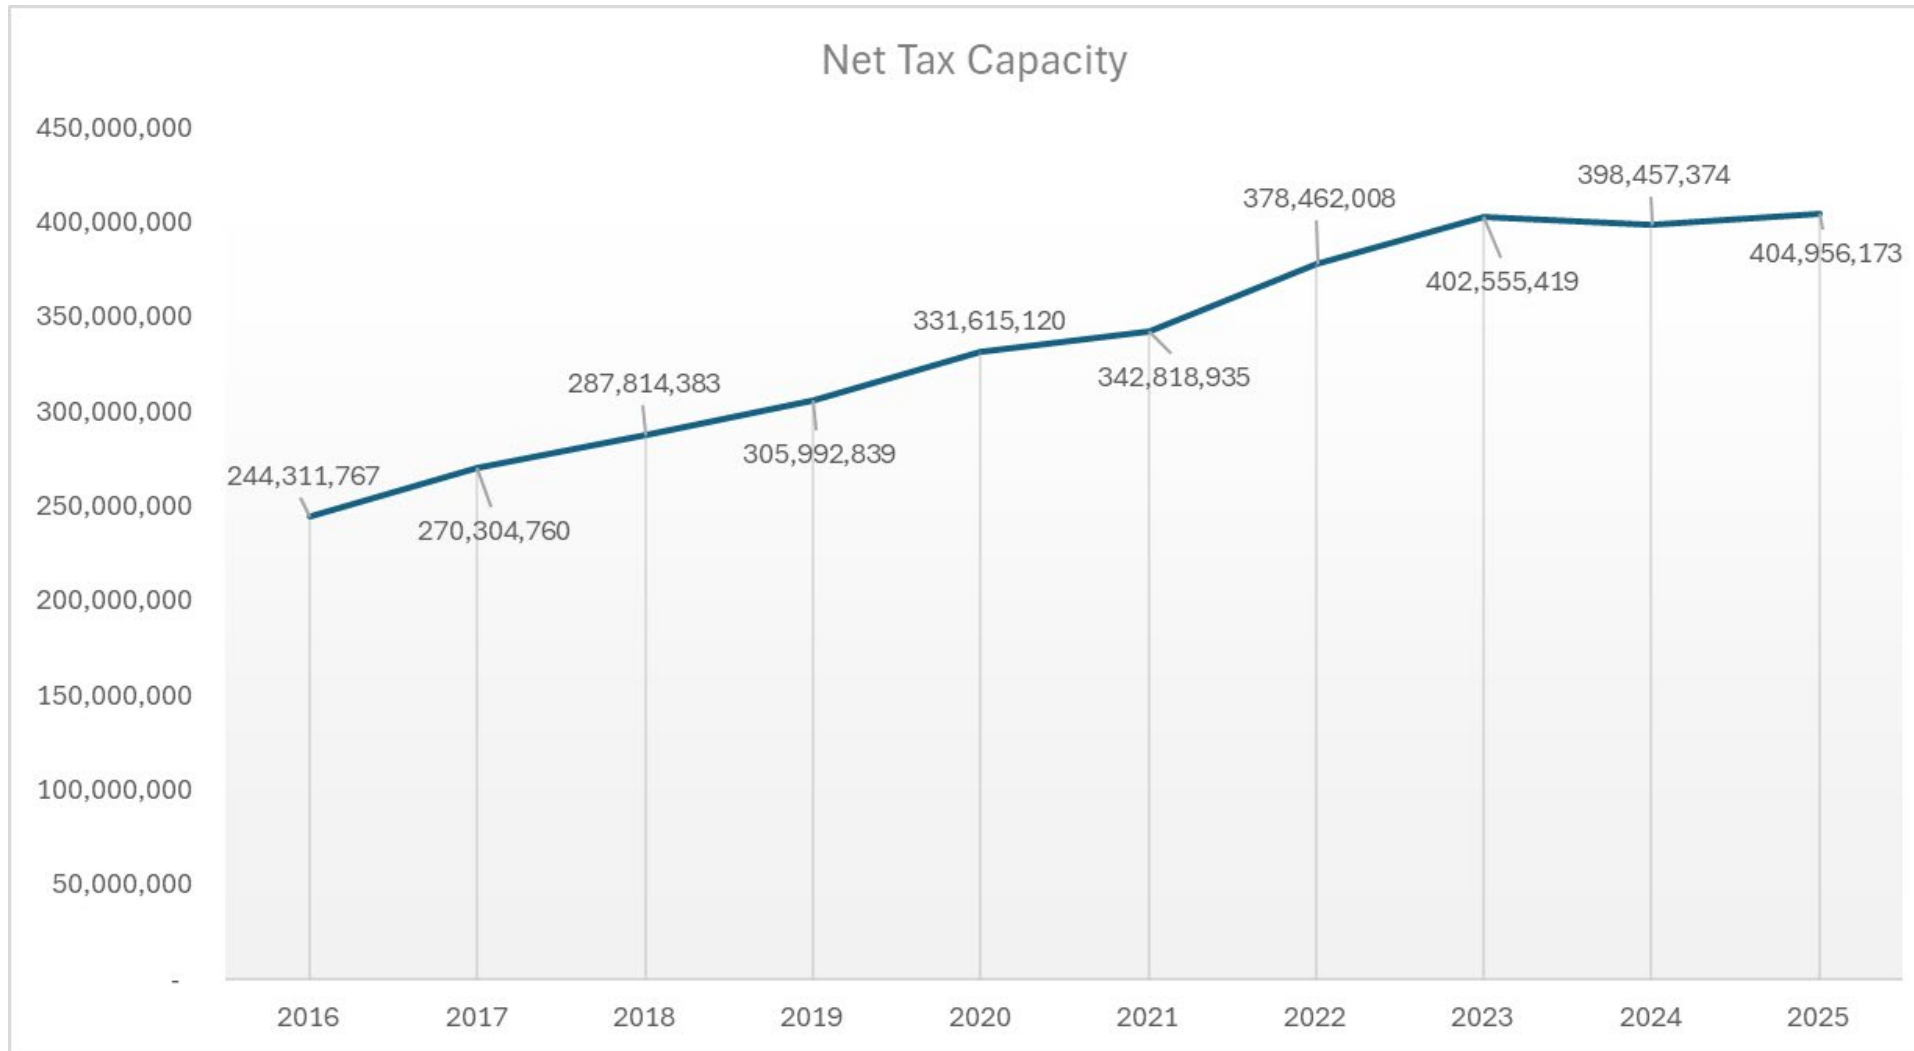

What is Changing – Market Value

Ramsey County Market Values (2024 - 2025)

	Agriculture	Apartment	Commercial	Exempt	Industrial	Residential	Total

Drivers of Ramsey County's number:

- Less commercial property than suburban counties.
- Built out - less housing development.
- Higher service needs

Key Takeaways

- Taxes are expected to rise across Ramsey County. While every community will see an increase, the impact isn't felt the same everywhere.
- Ramsey County's tax rate is the highest in the metro area.
 - Ramsey County is built out, so its capacity grows at a slower pace.
 - Ramsey County has less commercial property than other counties.
 - Ramsey County provides costly health, human and public safety services at a higher intensity than suburban counties.

Property Tax Relief Programs

There are a variety of qualifying property tax relief programs:

- **Senior Citizens Property Tax Deferral** (state program, administered locally): Age 65+ with household income \leq \$96,000 can defer a portion of taxes; apply by Nov 1 for the following year.
- **Minnesota Property Tax Refunds (PTR)**: Regular & special refunds for eligible homeowners; county directs residents to this state administered program.
- **Homestead programs**:
 - Homestead Market Value Exclusion lowers taxable value for owner-occupied homes (under the program's cap).
 - Disabled Veterans Market Value Exclusion (up to \$300,000 in value excluded, depending on disability rating).
 - Blind/Disabled classification that reduces the tax rate for qualifying homeowners.
- **Payment flexibility & penalty relief**:
 - One-time penalty waiver for late payment (once per parcel every 10 years).
 - Payment plans ("Confession of Judgment") for delinquent taxes—5- or 10-year installment options to prevent forfeiture.

We will continue to ensure residents are aware of these programs throughout the year leveraging our various communication channels and working with jurisdictional partners.

Fiscal Disparity Program

Local taxing jurisdictions contribute 40% of growth in commercial, industrial, and public utility property tax base since 1971 into an areawide shared pool of tax base. Local property tax administrators distribute the shared pool of tax base.

- Communities with below-average property tax value per person receive a somewhat larger share of the area-wide tax base.
- Communities with above-average property tax value per person receive a somewhat smaller share of the area-wide tax base.
