# The Impact

*“Helen has been so much more than just a life coach to me. She has been a friend who has never judged me or counted me out...Mentally and emotionally I wouldn't be where I am today if it wasn't for their services...I thank all of you for making this program possible.”*

*“I appreciate all that Alyshia has done, her strength in this whole thing has made me into a strong person, a more confident person & I love me more than anything.”*

*“I was able to get resources that I needed for my children...it helped me love myself & be there for my kids more emotionally.”*

*“I love my coach and all she does with resources and knowledge to help me and my family to succeed in life.”*

*“Because she treats you like family, she doesn't treat you like a statistic or just another number to get her numbers up, she actually cares and she treats you like you're family from day one.”*

*“My experience with my family coach has just been beyond genuine, the emotional, and the mental support. I can definitely feel the difference from the help I've received versus other places in my life.”*

*“My coach has been very supportive and more than a mentor. She has become such a huge cheerleader in my life and positive person for me to talk to.”*
